

**Note:** Centers can pick any activity from the component given below, one activity per day. On each day children must be given a 30 min break in between the curriculum. Centers can plan the schedule accordingly. Refer to sample schedule given under Summer Camp Guidelines.

### MAGIC SPELLS:

Activity	Description	Materials Needed
The Big Reveal	<p><b>The Big Reveal</b></p> <p>Ask a student to pick a crayon from a box. Teacher shall guess the color with mind-reading powers!</p> <p><b>Props:</b> A small box of crayons.</p> <p><b>Secret Steps</b></p> <ol style="list-style-type: none"> <li>1. Stand with your back to your student. Put your hands behind your back and ask her to pick a crayon out of the box and place it into your hands.</li> <li>2. Once you can feel it in your fingers, turn to face your student with your hands concealed behind you. While you're talking about the magic, scrape the crayon with your right thumbnail so some wax gets stuck between your finger and the nail.</li> <li>3. Keeping the crayon behind your back in your left hand, transfer your student's thoughts to your own with your right hand. Wave your fingers in front of her face, repeating, "I'm reading your thoughts" and "I'm moving them into my mind."</li> </ol>	Crayon box

		<p>4. As you're waving your hand in front of your eyes, sneak a glimpse of the color under your thumbnail.</p> <p>5. Reveal the answer, adding a few dramatic <i>abracadabra's</i> for effect.</p>		
	<p>Turn Wine Into Water</p>	<p>You can make students believe you have transformed wine into water by following these instructions:</p> <ol style="list-style-type: none"> <li>1. Put a small amount of bleach in an empty glass.</li> <li>2. And prepare a second glass with water and red food coloring (the "wine").</li> <li>3. Pour the red liquid into the empty glass and you'll see how the bleach makes it become clear.</li> </ol>	<ol style="list-style-type: none"> <li>1. Bleach</li> <li>2. Food coloring - Red</li> <li>3. Water</li> <li>4. Two glasses</li> </ol>	  
	<p>Make water into ice</p>	<ol style="list-style-type: none"> <li>1. Pour water into a cup and then turn the cup over to see just an ice cube coming out.</li> <li>2. The secret consists of placing a sponge at the bottom of the glass to absorb the water.</li> <li>3. The ice cube needs to be placed on top of the sponge in advance without the students knowing.</li> <li>4. Once the cup with the sponge and ice cube is ready.</li> <li>5. Show the cup to the students from a distance so that they don't see the sponge or ice cube.</li> <li>6. Pour little water as much as the sponge inside can absorb.</li> <li>7. And say a few magic spells like <i>abracadabra</i> to get the students attention and turn the cup to make the ice cube fall out.</li> <li>8. Tell the students that the magical spell you uttered has turned the water poured inside into ice cube.</li> </ol>	<ol style="list-style-type: none"> <li>1. Cup</li> <li>2. Ice cubes</li> <li>3. Water</li> <li>4. Sponge</li> </ol>	      

          	<p>Vanish a ball inside a cup</p> <p>Rising Ketchup packet</p> <p>Magical Color Changing Drinks</p>	<p>9. Once done teach the trick to the students and give a chance for each one of them to try.</p> <p>1. This trick requires a cup, a ping pong ball, and a glue dot. 2. Place the glue dot at the bottom of the cup. 3. Let the ball fall right on the glue dot and then put the cup upside down to show no ball is falling out of it. 4. A certain level of confidence and some razzle-dazzle movements with your hands are required to make this trick look genuine. 5. Once done teach the trick to the students and give a chance for each one of them to try.</p> <p>1. You can make the packet rise and fall by subtly squeezing (and releasing) the bottle with your right hand. 2. Make sure that the students focus more on your left hand and won't notice what your right hand is doing. 3. Make a show of "controlling" the packet with your left hand.</p> <p>1. Hide food coloring under ice cubes in a cup. 2. Then pour Sprite atop it. 3. When the Sprite mixes with the food coloring it will "magically" change colors. 4. You can keep turning your hands around the cup to make it appear like you are casting a magical touch for the drink to change color.</p>	<p>1. Ping pong ball 2. Fevicol / Fevibond 3. Cup</p> <p>1. Empty 1 litre drinking water bottle - Preferably thin 2. Water 3. Ketchup packet</p> <p>1. Ice cubes 2. Sprite 3. Cup 4. Food Color</p>
