# Château Français

## DESIGN PHILOSOPHY

The Architecture of the School is planned in such a way that it is subservient to reflect the values of the location. It is designed for the pupils who love the peace of the open land. Education doesn't end within the classroom. And the whole design is based upon the concept "LESS is MORE."

## EMPATHY and FOCUS

- Good appearance always brings eyes closer  
Elevation of the building is designed as a cultural artifact on the basis of the site location
- KARAIKAL being an erstwhile French Colony, has its own style of architecture for centuries.
- The concept seamlessly merges traditional values with modern civilization.
- The elevation of the building reflects the nativity of the land.

KNOWLEDGE INNOVATION EXCELLENCE

## TEACHING & LEARNING METHODOLOGIES

### Developmentally Appropriate

learning methodologies spanning Multiple Intelligences, firmly acknowledging the belief that every child is unique and every child can learn

### Interactive Approach

thus enabling Learners to get involved, explore and enrich their understanding

### Experiential Learning techniques

to reassure our belief that Learners learn their best when allowed to discover and experiment with their own ideas with Educators' assistance

### Thematic and Project based Learning

strategies to establish links between different subjects aiding cross curricular learning and understanding

### Pro-active Literacy Strategies & Collaborative Learning

applied across all subjects

Appropriate Technology-based learning to aid in sharing added information

## Our Curriculum

At ENPEE, we offer CBSE method of education. We believe in providing 'Effective Early Education', through Developmentally Appropriate practice, with three core considerations as given by the NAEYC

We have carefully handpicked our collection of books for the effective learning of our children, from chosen authors. As we are to be affiliated to the CBSE, we have included NCERT books to aid in their learning. We ensure an effective balance between linguistic, arithmetic & scientific learning and also offer various linguistic platforms ranging from Tamil, Arabic, French & Hindi.

# 01

Knowing about Child development & learning

# 02

Knowing what is individually Appropriate

# 03

Knowing what is culturally Appropriate

## Our MARINER'S STAR

At ENPEE, our well-trained educator will be dedicated towards

- Creating a caring community of learners
- Planning curriculum to achieve important goals
- Teaching to enhance development & training
- Assessing Children's development and learning
- Establishing reciprocal relationships with families

These five guidelines helps a teacher to act as a 'Mariner's Star' to guide children in their journey to learn the best.

Offers the following programs for the **Academic Year 2019-2020**

ENPEE follows the CBSE method of education, offering various languages such as Tamil, French, Arabic and Hindi to its learners

### PRE K.G

Early Childhood education is the child's first step towards social engagement. This prepares toddlers through Experiential learning activities, making real life connections. Our program is based largely on the developmentally appropriate practice thereby delivering the right curriculum at the right age

### L.K.G

The role of Early Childhood & Primary education is to ensure overall development in a child, which means attention must be paid to both cognitive & intellectual aspects as well as social & emotional development of a child. At ENPEE, Our Kindergarten programs provide the child with Academic and overall readiness to step into the world of Primary education, from Early years.

### Class 1 to VIII

Our CBSE method of education through Continuous Comprehensive Evaluation(CCE) is a curricular initiative shifting emphasis from assessment to holistic learning. We follow the NCERT books, which supplements the learning process at ENPEE. Our friendly & welcoming classrooms offer children the space to learn the right way.

We believe in leading a child to the highest broad-based development **mentally, physically, spiritually, socially and emotionally**

KNOWLEDGE INNOVATION EXCELLENCE

# Robotics

In today's technology-driven world, it's important now more than ever to prepare students for the future. Teaching robotics to young students throughout their schooling can increase their ability to be creative and innovative thinkers and more productive members of society.

**ENPEE INTERNATIONAL SCHOOL** has recognized the importance of robotics in the classroom we train our students the basics of robotics, we can open a whole new world to them and exciting opportunities that they wouldn't have access to otherwise.
